

Making a difference...together

Community Dialogue Worksheet
Core Area Wastewater Treatment Project

As the CRD Committee (CALWMC) moves towards making a decision on which distributed wastewater management strategy to recommend to the CRD Board, we want to hear what your triple bottom line is.

Under the Environmental Principle:

- 1) Please share what you consider to be your most important environmental issue in a wastewater system?

- 2) Please explain why you believe these issues are important?

Under the Social Principle:

- 1) Please share what you consider to be your most important social issue in a wastewater system?

- 2) Please explain why you believe these issues are important?

Under the Economic Principle:

1) Please share what you consider to be your most important economic issue in a wastewater system?

2) Please explain why you believe these issues are important?

Is there anything else you believe should be considered in the CRD Committee's (CALWMC) deliberations?

Community Dialogue Workshop Feedback:

Please rate your opinion of this workshop session, with 1 being the lowest and 5 the highest.
